▸ Competitive salary
▸ Advancement opportunities
▸ Great office environment in the Business Incubator of Novi Sad
▸ Chance to take part in the coming Augmented Reality revolution
▸ You will work in a team where your professional needs and demands will be met

REQUIRED SKILLS

▸ Ability to work autonomously
▸ Outstanding problem solving and debugging skills
▸ Knowledge of algorithms, design patterns and structures
▸ Good oral and written communication skills
▸ You are a team player
▸ You know how to accept and extend criticism

DESIRED SKILLS

▸ Experience in Unity 3D C# development
▸ Broad experience in object oriented development
▸ Basic knowledge of 3D algebraic geometry (transformation matrices, quaternion and Euler angle rotations)
▸ Leadership skills

ZUMOKO

Zumoko is a young self-funded startup focusing on Augmented Reality software development and related computer vision algorithms. We have two branches of business, with first one being the 3D object detection and tracking software for HoloLens, and the second is service oriented business where we provide AR solutions to customers worldwide.

If you are THE ONE for this job, please send your CV and motivation letter to jobs@zumoko.com with subject "C#_DEVELOPER".
